OMAHA LIVE STOCK MARKET

Very Good Holiday Run of All Sorts Reaches the Yards.

DRESSED BEEF TRADE QUITE ACTIVE

Local Men After the Few Fed Steers Offered, Paying Strong Prices-Hogs Open Steady and Close Active and Strong.

THURSDAY, May 30. There were 100 cars of stock received today, a very respectable run for a holiday. The four days' receipts foot up 5,344 cattle 17,011 hogs and 1,480 sheep, this being an increase compared with last week of about 1,000 cattle, and a decrease of 7000 hogs and 200 sheep.

The supply of cattle was 1,116 head, as against 1,000 yesterday and 1,097 on last Thursday, Offerings included no choice beef steers, and few that even by courtesy could be called good. This made trade rulet, although the decent beef cattle, in fact, anything that the killers could use, sold at good strong prices. Shippers, as usual on Thursday, did very little, but the dressed beef men were all wanting cattle, and by the middle of the forenoon the supply was

There was also a good general demand for butchers' and beef cows. Such sold readily at steady to strong prices. Some readily at steady to strong prices. Some choice polled heifers brought \$4.70, the highest price paid here in a long oute. The common and cunning cows were in indifferent demand, although prices were about the same as on pesterday. The market for yeal calves was dull, but not quotably lower. Bulls, stags, etc., generally self at slightly firmer figures.

The stocker and feeder trade gave more sign of life than it has for some time, and prices ruled a shade stronger all around. Supplies were limited and the country demand was slack, and the limited offerings were soon picked up. Representative sales:

CHICAGO LIVE STOCK.

Farmers show Anxiety to Get Their Cuttle to Market.

CHICAGO, May 30,-Owing largely to the higher price of feed and a scarcity of water in many sections, farmers are sending their cattle to market in much larger numbers and the receipts at prominent western markets are large, run-ning ahead instead of behind a year ago. Trade was of a holiday character and sales were very slow at weak prices for all except the best lots, with grazsy cattle especially dull and weak Common to fair grades again predominated, and for such prices were from 15c to 20c lower, fair to strictly choice fine beef steers weighing 1.5% to 1.5% los. selling principally at from 14.5% to 1.5% butchers' cows at from 12.5% to 12.5% and fat cows and helfers at from 12.5% to 12.5% and good to choice well calves are in demand at from 13.5% to 15.5%, and good to choice well calves are in demand at from 13.5% to 15.5%, and good to choice well calves are in demand at from 14.5% to 15.5%. The stocker and feeder trade is demoralized and the stocker market is oversupplied and irregularly lower. A few extra feeders continue to bring high prices, as such lots are not very plenty, but sales of good feeders are mainly at from 13.5% to 14.5%.

In hogs fewer are being marketed here this week. The demand opened active and a good business was transacted at stronger prices, local gookers buying freely. Later, after most of the island. Fighting is imminent. was of a holiday character and sales were very
